Areas of Interest

I aim to contribute to my country by working in the defense industry. Specifically, to take part in domestic and original systems developed under the national technology initiative, I am actively developing my skills in avionics, artificial intelligence, and autonomous systems within the fields of electronics and software. As a reflection of these efforts, I completed my 1st mandatory summer internship at TUSAS and my 2nd mandatory summer internship at BMC.

Education

- 📖 **Electrical and Electronics Engineering, Izmir Democracy University**
Bachelor's Degree, 4th Year, GPA: 3.32/4.00
Ranked 1st in 3rd Year (Spring/Fall Semesters)
- 📖 **English Preparatory Program, Izmir Democracy University**
Completion Grade: 72/100
- 📖 **High School, 15 Temmuz Anatolian Imam Hatip High School**
Graduation Grade: 89.97/100

Skills

- 📖 **Languages:** Turkish (Native); English (B2)
- 📖 **Programming:** Python ^{Advanced} , C++, Matlab, SQL
- 📖 **Data & Analysis:** Jupyter Notebook (Python); Data Preprocessing and Visualization
- 📖 **Design & CAD:** SolidWorks, Cura, Altium Designer, Proteus, Canva, DaVinci Resolve
- 📖 **Embedded Systems & Hardware:** Arduino, STM32, Raspberry Pi, Jetson Nano, ESP32; PCB through-hole assembly, soldering, Li-Po battery packing and nickel spot welding
- 📖 **Computer Vision:** Real-time object detection and tracking using YOLO-based models
- 📖 **Project Development & Management:** Anaconda Prompt, PyCharm, GitHub, Trello, Microsoft Office; Project planning and team coordination

Projects & Studies

- 📖 **Teknofest Unmanned Ground Vehicle (UGV) Competition**
Role: Software Systems
- 📖 **Istanbul Public Transportation Optimization**
Advisor: Asst. Prof. Başak Esin Köktürk Güzel
- 📖 **Design and Integration of Adaptive Image Enhancement Pipeline for UGV Autonomous Driving**
Advisor: Asst. Prof. Vildan Atalay Aydın
- 📖 **AI-Based Classification and Disease Detection of Lung X-Ray Images**
Advisor: Asst. Prof. Başak Esin Köktürk Güzel

Projects & Studies (continued)

- **Glass Fiber Reinforced Wind Turbine**
Advisor: Suphi Yertum (3D and Mold Design Instructor)
- **Real-Time LCD Control with Finger Gesture Recognition**
Advisor: Dr. Çağlar Cengizler
- **Smart Greenhouse: Feedback Humidity Monitoring and Response System**
Advisors: Prof. Dr. Uğur Çavdar, Prof. Dr. Kemal Avcı
- **Teknofest International Unmanned Aerial Vehicle (UAV) Competition**
Role: Autonomous System Architecture Design and Integration
Report Passing Grade: 79.67
NOTE: Participated in the SAVTEK (Defense Technologies) Fair with our project
- **Data Analysis and Data Mining Project**
Advisor: Prof. Dr. Selami Beyhan
- **Financial Technologies Ideathon, MUSIAD**
Our team ranked **1st** among 11 teams
- ! ■ **Project documentations can be accessed via the Google Drive or personal website link located in the top left corner of the CV**

Experience

- **BMC**
At Tank and Heavy Armored Vehicles Facility
INTEGRATION AND TEST/DELIVERY DIRECTORATE
2nd Mandatory Summer Internship Completed
- **TURKISH AEROSPACE INDUSTRIES (TUSAS)**
At TUSAS Ankara Facility
AVIONICS SYSTEMS DIRECTORATE
1st Mandatory Summer Internship Completed
- **IMDS, Karaköy, Istanbul** -> Voluntary Intern -> EMBEDDED SYSTEMS
- **Ümit Maker, Bağcılar, Istanbul** -> Voluntary Intern -> Li-PO BATTERY SYSTEMS
- **CIGRE NGN Izmir Democracy University**
Board Member / Event and Technical Trip Organizer / Head of Design Committee
- **Google DSC Izmir Democracy University** -> Board Member
